

Ted's Space and Time Explorer Trail

KS1

Go on an adventure with Ted and explore the Royal Observatory.

Draw yourself standing next to Ted and colour it in.

1

My name is

The Planetarium Cone

This is our Planetarium Cone. Underneath it is our planetarium! You might have met Ted in the planetarium.

Walk around the Planetarium Cone once and write down how many steps you took.

.....

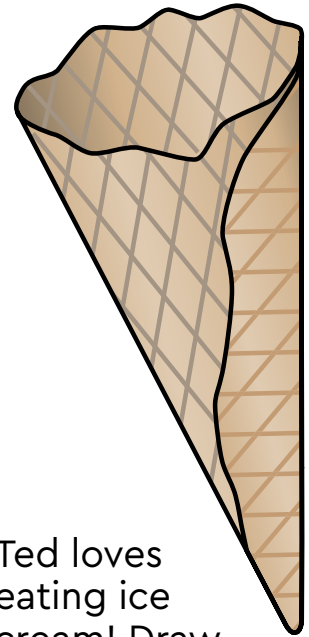

Does the planetarium look the same all the way around?

Even though we call it the "Planetarium Cone", it doesn't have a pointy bit at the top. It's like someone has cut it off!

What shape is the top of the Planetarium Cone?

.....

Ted loves eating ice cream! Draw what you think his favourite flavour is on this cone. Is there anything on top?

Altazimuth Pavilion

Can you see this comet at the top of the building?

What is a comet made from? Put a circle around the correct words.

Oh no, the comet below doesn't have big long beautiful tail. Why not draw your own version.

BANANAS

ICE

GAS

CHEESE

WOOD

ROCK

DUST

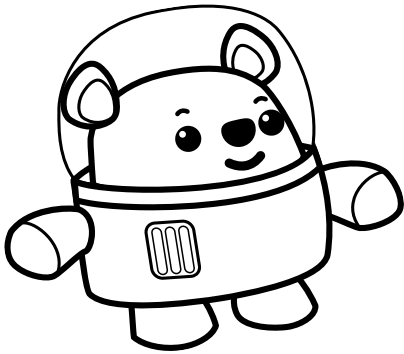

2

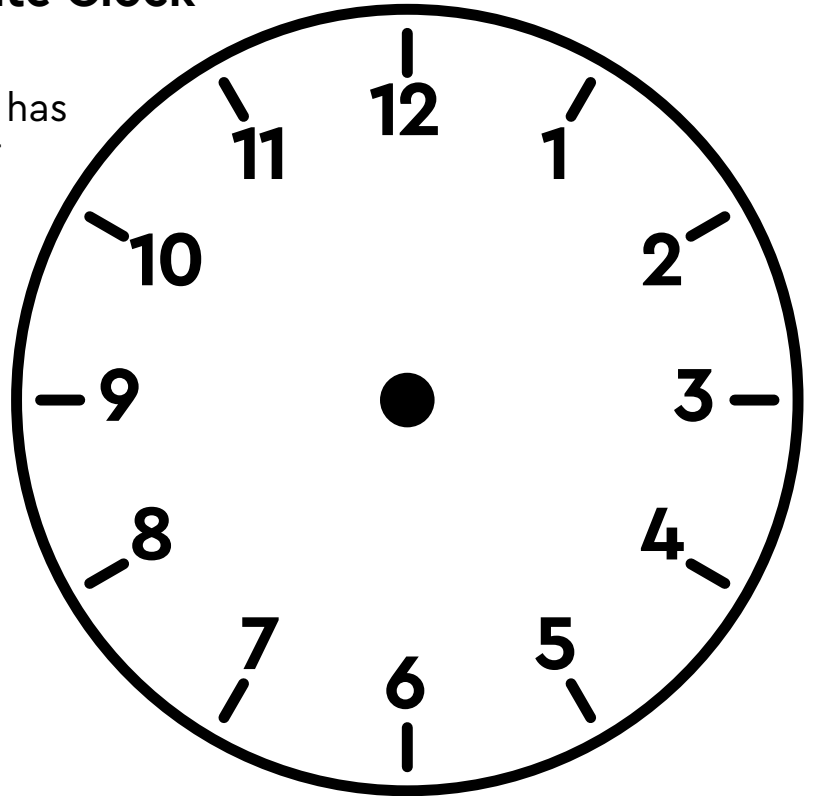

Shepherd Gate Clock

The Shepherd Gate Clock has 24 hours on its face rather than the usual 12.

Ted's rocket is blasting off into space tomorrow at 11:30. Put the hands on the clock to show that time.

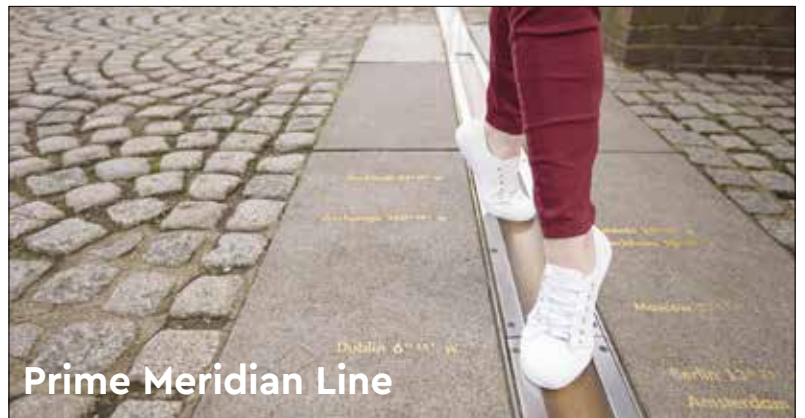

Prime Meridian

Hop over this special line called the Prime Meridian - what cities can you see written along it?

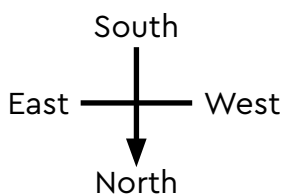

The Prime Meridian divides the Earth into two parts - the Eastern Hemisphere and the Western Hemisphere.

Ted likes to hop around when exploring new places.

Write down a city that lies east of this line

Write down a city that lies west of this line

3

.....	PRIME MERIDIAN
.....	
.....	

A New Planet

Ted has found a new planet to explore

Ted says that the planet has orange trees and blue grass. The sky is green in colour and there are purple clouds in the sky.

Try drawing this strange new planet.
